

LARRY A. FISHER, PH.D.

School of Natural Resources and the Environment, University of Arizona
1064 E. Lowell Street, Tucson, AZ 85721

Email: lafisher@email.arizona.edu; Phone: 520-909-1605

Web site: <https://nature.arizona.edu/larry-fisher>

PROFESSIONAL EXPERIENCE:

9/11 to present: Research Professor, School of Natural Resources and the Environment, University of Arizona, Tucson, Arizona: Develop a teaching, research, extension and service program on landscape-scale conservation, public lands policy, climate change adaptation, forest management and conservation, and environmental conflict resolution. Design curricula, teach courses, seminars, and training events, and supervise graduate student research. Develop and implement a robust, applied research and service program to advance scholarly work, both in the US and internationally. Serve on appropriate committees in the School of Natural Resources, Office of Arid Lands Studies, Institute of the Environment, and other academic programs to connect university-based programs to active field projects and policy-related efforts to provide public service, extension, and support for training and capacity building.

8/01 to 8/11: Senior Mediator/Program Manager, U. S. Institute for Environmental Conflict Resolution, Tucson, Arizona: Coordinated the Public Lands and Natural Resource Management Program, a national effort focused on resolving priority federal land management disputes. Responsible for managing a broad portfolio of cases related to land use planning, species and habitat conservation, timber and vegetation management, oil and gas leasing, recreation, watershed and ecosystem management. Provided support for case analysis and assessment, convening, mediation and facilitation services, policy analysis, training, general project oversight, and supervision of staff and project sub-contractors.

3/96 – 8/01: Director, Program on Environment and Community, Center for the Environment, Cornell University, Ithaca, New York: Coordinated the development of collaborative programs in agriculture, community forestry, and protected area, watershed and ecosystem management, in the Northeastern United States, Southeast Asia, and Latin America. Program activities included outreach and extension, applied research, training, strategic planning and organizational development, coalition building, and policy analysis with a wide range of public and private agencies. As program director, responsibilities also included organizational planning, supervision of program and research staff, general administration, grant writing and fundraising, and production of research reports, program documentation, and training materials. Campus-based activities included the development and teaching of graduate and undergraduate academic courses in the

Department of Natural Resources, supervision of graduate student research and independent study projects, and development of academic seminars and training workshops.

9/93 – 8/01: Program Coordinator, Cornell International Institute for Food, Agriculture, and Development (CIIFAD), Cornell University, Ithaca, New York: Coordinated activities for CIIFAD country programs in Indonesia and China, and for thematic programs in community-based natural resource management and environmental mediation. The focus of these programs included uplands agriculture and alternatives to shifting cultivation, community forestry, watershed and protected areas management, and environmental dispute resolution. Responsibilities included the development of research and training initiatives, the establishment of working partnerships with relevant government, non-profit, and community-based organizations, as well as the development of academic courses, seminars, and working groups at Cornell University.

6/81 – 6/93: Area Representative, Southeast Asia Region, World Neighbors, Oklahoma City, Oklahoma: Responsible for planning, management, supervision and evaluation of World Neighbors-assisted programs in agriculture, agroforestry, community forestry, rural health, and livelihood development projects in Southeast Asia (including country programs in Indonesia, Philippines, Cambodia, Vietnam, and China). The major emphasis of these programs was in working directly with marginal upland communities to identify opportunities and assist in the development of sustainable farming practices, land use, and resource management strategies. In addition to technical and program management concerns, the position included a strong focus on local leadership and capacity building, organizational development, interagency networking, action research, and the development of effective media and learning materials.

6/87 – 7/88: Consultant, Agriculture and Forestry Programs, The Ford Foundation, Southeast Asia Regional Office, Jakarta, Indonesia: Provided program support for Ford Foundation assistance to the Indonesian Ministry of Forestry's national Social Forestry Program, and to the Agro-ecosystems Research Unit (KEPAS) of the Agency for Agricultural Research and Development, Ministry of Agriculture; also responsible for supporting Foundation-sponsored agriculture and forestry projects in Thailand and the Philippines. Provided technical guidance, training, field research and surveys, evaluation, policy analysis, and program and grant management for the Foundation and for grantees and institutional partners.

6/81 – 6/84: Program Director, Sumba Integrated Community Development Program, Waingapu, East Sumba, Indonesia: Initiated and managed this integrated community development program on Sumba Island in East Nusa Tenggara province. The technical focus of this program was on soil and water conservation, small-scale afforestation, and basic approaches to integrated farm management and food security. The program emphasized the development of farmer-based extension networks throughout the isolated upland interior of the

island. Program leaders incorporated these farmer networks into a registered foundation, Yayasan Tananua, and the organization has since extended its program work to neighboring islands of Flores and Timor. In 1998, Yayasan Tananua was awarded the Indonesian National Award for the Environment (Kalpataru Award).

6/77- 6/79: Visiting Instructor, Agronomy and Extension, Universitas Cendrawasih, Manokwari, Irian Jaya (now Papua Barat), Indonesia: Developed and taught academic courses in agronomy, agricultural extension, and rural sociology, as well as field-based farmer training, field research, and rural survey methodology. Coordinated university outreach and extension programs and developed working partnerships with a range of government and private agencies to promote farmer training initiatives throughout the mountainous highlands of West Papua. The position was sponsored by the Asia Foundation.

6/75 – 6/77: Volunteer, Village Volunteers Association (BUTSI), and Visiting Instructor, Teachers' Training College (IKIP), Medan, North Sumatera, Indonesia: A volunteer placement through Volunteers in Asia (Stanford University), the position involved support for rural and community development programs in the Karo Highlands, as well as teaching and training duties (English language and literature, community development, rural sociology) at the Teachers' Training College in Medan.

1/74 – 12/74: Chemical Technician, KVB Engineering, Tustin, California: Conducted analysis of stack gas emissions and provided general support services for major power utilities in California, Florida, New York, and Arizona. Worked with environmental engineers on the chemical testing, analysis, and reduction of NO_x emissions to comply with EPA air quality standards.

EDUCATION:

Ph.D., Natural Resources (1999), Cornell University, Ithaca, NY Major: Forest Policy and Management; Minors: International Agriculture and Rural Development, Conservation and Sustainable Development. Dissertation Title: “Beyond the *Berugaq*: Conflict, Policy, and Decision Making in Forest and Conservation Management in Nusa Tenggara, Indonesia”

Masters in Professional Studies, International Agriculture (1981), Cornell University, Ithaca, NY Major: Agricultural Extension Systems Minor: Agronomy and Soil Sciences Project thesis title: “Rural Survey Methods and Strategies: A Handbook for Practitioners”

Bachelor of Arts, Social Sciences (1974), University of California, Irvine, California. Focus on Human Ecology, Biology, Psychology and Comparative Cultures Independent study abroad program, India (2/73 – 8/73).

RELATED PROFESSIONAL EXPERIENCE

1/98 – present: Senior Diplomatic Interpreter, Office of Language Services, U.S. Department of State, Washington, D.C. Provide senior-level diplomatic interpreting in Bahasa Indonesia and Bahasa Malaysia (both simultaneous and consecutive) for the US State Department, White House, Department of Defense, and other federal agencies. Assignments include senior level bilateral and multi-lateral meetings, official state visits, international and regional summits and conferences, strategic planning meetings, technical training events, and interpretation services for visitor exchanges.

6/2015 – present: Coordinator, Collaborative Conservation and Adaptation Strategy Toolbox (CCAST). Work with the US Fish and Wildlife Service and the Bureau of Reclamation to develop (CCAST), an online library of case studies of exemplary conservation management programs. CCAST has also supported several Communities of Practice – practitioners networks working on specific topics of conservation interest in the Southwestern US (e.g., Non-Native Aquatic Species, Grasslands Restoration, Drought and Water Management, Pollinator Species).

9/20 – present: Co-Coordinator, Interdisciplinary Research on Human-Environmental Interactions, National Center for Scientific Research (Centre national de la recherche scientifique – CNRS): Support CNRS-supported applied research projects on conservation-related themes in Pima County, Arizona. Pima County is one of 13 global observatories examining the links between research and civil society, political actors and local communities. The observatories monitor and analyze coupled social and environmental systems through observations, experiments, modeling and data preservation to contribute to efforts to promote sustainable development.

5/19 – 10/19: Technical consultant, United Kingdom Climate Change Unit (UKCCU) and the United Nations Development Programme (UNDP). Work with a project team to develop long-term recommendations for leadership development in conservation management programs, including broad-based planning initiatives, training of protected area managers, support for community-based conservation leaders and programs, research, science, and information management, and development of primary school curricula. The initiative also includes support for establishing a world-class Museum of Natural History and Botanical Gardens.

4/17 – 6/19: Lead mediator/facilitator, Heber Wild Horse Territory Collaborative Working Group, Southwest Decision Resources. Provide mediation and facilitation support for this collaborative working group convened by Arizona State University. The Working Group has a one-year timeline to develop input and recommendations for the USDA Forest Service and Cooperating Agencies (Arizona Department of Agriculture and Arizona Game and Fish Department), for consideration in their development of a comprehensive management plan for the Heber Wild Horse Territory, in the Apache-Sitgreaves National Forest.

10/14 – 6/16: Consultant, Ford Foundation/Climate and Land Use Alliance. Conduct a comprehensive assessment of opportunities for building capacity to resolve agrarian and natural resource management conflicts in Indonesia. The assessment findings suggested significant investment in training and leadership development, research and documentation, institutional and policy reform, and general coordination, and I am currently involved in supporting follow up initiatives in these areas.

10/14 – 6/16: Consultant, Bureau of Land Management, Tucson Field Office, Tucson, Arizona. Design and lead public engagement strategy for the Resource Management Planning effort in the San Pedro Riparian National Conservation Area in southeastern Arizona; provide support for other National Land Conservation System Lands in Arizona on large landscape conservation, adaptive management, and collaboration and public engagement strategies.

7/15 – 12/16: Consultant, USDA Forest Service, International Programs. Provide support for the Indonesia country program for USDA Forest Service's cooperative work with the US Agency for International Development Mission and the Government of Indonesia in the rehabilitation of deforested and degraded lands for future sustainable forest management through the Ecosystem Restoration Concessions (ERCs). Support includes reviewing the legal and policy framework for management of ERCs and surrounding lands, determining opportunities and barriers for effective restoration practices within the ERCs, analyzing current and/or potential drivers of deforestation and degradation, and providing direct technical advice to government, NGOs, and the private sector on restoration planning.

11/12 – 6/16: Consultant, Center for International Forestry Research, Bogor, Jakarta, Indonesia. Conduct research on deforestation and forest degradation in Lombok, NTB province, related to the National REDD+ Strategy and Implementation in Indonesia. The project is co-sponsored by CIFOR and the Korean Forest Research Institute.

5/13 – 9/13: Consultant, Rajawali Foundation, Jakarta, Indonesia: Conduct a national assessment to establish an Indonesian institute for research and education. The new Institute, (established in September, 2013), the Center for Public Policy Transformation, conducts primary research on issues of national and regional importance and provides high quality executive education to government officials and other professionals.

11/12 – 6/13: Consultant, Packard Foundation, San Mateo, California. Conduct a comprehensive evaluation of Photovoices International program work and experience to date, with special emphasis on potential applications to marine conservation programs in the Coral Triangle region of Asia and the Western Pacific.

10/11 – 6/12: Contractor, USDA Forest Service, Washington, DC. Work with a national research team to develop synthesis of scientific research and management

experience in using Structured Decision Making within the Forest Service and other federal agencies. Produced two General Technical Reports and a peer-reviewed publication.

4/05 - 6/07: Consultant, World Education, Boston, MA. Conducted multiple assessments of orangutan and forest conservation programs in Kalimantan/Borneo, Indonesia. Assisted with strategic conservation planning and enhanced integration of forest conservation and community development programs.

9/98 - 9/04: Member, National Steering Committee, Community Forestry Research Network, Berkeley, California: Provided leadership, program planning and development, training, general oversight, and selection of recipients for this national fellowship program for community forestry research in the United States. The program was funded by the Ford Foundation and hosted by the University of California, Berkeley.

6/00 - 8/01: Consultant, Food and Agriculture Organization (FAO), Community Forestry Unit, Rome: Assisted in the development and review of publications related to social forestry and environmental conflict management for Asia and Latin America programs; developed a series of case studies on environmental mediation.

7/98 - 10/01: Consultant, The Nature Conservancy, Washington, D.C. Developed training materials and courses on environmental coalition-building for TNC's Latin America and Caribbean Division.

6/98 - 7/01: Consultant, USDA Forest Service, Green Mountain and Finger Lakes National Forests, Rutland, Vermont. Organized and facilitated pre-NEPA activities related to Forest Plan Revision, including the design and facilitation of public involvement processes, analysis and documentation of public comment, training and capacity building, and action research related to public perspectives on forest management practices.

10/94 - 8/01: Community Mediator, Community Dispute Resolution Center, Ithaca, New York: Provided volunteer mediation and facilitation services for both two-party and multiparty community and environmental disputes in Tompkins County and surrounding areas in central New York.

2/97 - 10/98: Member, National Steering Committee, Community-Based Ecosystems Management in the United States, American Forests, Washington, D.C. Provided leadership in organizing and convening this national effort to bring together researchers, practitioners, and agency representatives to analyze and document relevant programs and policies. The 20-month project was sponsored by American Forests, with participation and funding from the USDA Forest Service, Bureau of Land Management, Environmental Protection Agency, and the Ford Foundation.

5/94 – 8/97: Consultant, Biodiversity Support Program, Washington, D.C. Reviewed project proposals and provided technical assistance and program support for this international conservation management program sponsored by the World Wildlife Fund, The Nature Conservancy, and World Resources Institute.

6/92 – 12/92: Consultant, Sustainable Agriculture and Extension Training Program, PADEK/World Vision and the Ministry of Agriculture, Phnom Penh, Cambodia: Conducted rural surveys and evaluated agricultural research and extension programs for government and NGO programs in central Cambodia; organized training events on extension support systems and participatory survey methods.

5/91 – 6/92: Consultant, Integrated Pest Management Programs, World Education/Pesticide Action Network, Jakarta, Indonesia: Provided support for early program development related to farmer-based extension systems for pest management efforts in upland vegetable growing areas in North Sumatera and Central Jawa.

1/91 – 5/93: Consultant, Nutrition/Food Production Research, Universitas Udayana, Faculty of Medicine, Denpasar, Bali, Indonesia: Worked with the University of Udayana's Epidemiology Research and Training Unit to develop an interdisciplinary research program on food production and nutrition. Program support included research design, staff training in research methods, and field surveys and workshops with government officials and NGO leaders.

6/89 – 5/93: Co-founder and Advisor, Citra Usadha Foundation, Denpasar, Bali, Indonesia: Helped establish the first HIV/AIDS outreach and assistance program in Indonesia. Assisted with the design and implementation of initial survey research, organized workshops and training events, and assisted in general strategic planning, fundraising, and organizational development for the Foundation.

10/88 – 12/88: Consultant, Agricultural Extension, Training and Education, United Nations Development Program (UNDP), Jakarta, Indonesia. Conducted a comprehensive review of agricultural extension and education programs in the province of Irian Jaya (now West Papua). The review included development of program plans for improving extension support, agricultural education, and research institutions in the province.

10/87 – 12/87: Consultant, Agricultural Research, International Development Research Centre (IDRC), Singapore. Conducted a review of root and tuber crop research in eastern Indonesia and the southern Philippines; offered recommendations on improving station-based and field research and extension programs.

8/92 – 11/85: Consultant/Program Advisor, CARE, Indonesia. Provided support for the establishment of CARE's Dryland Farming Systems Program in eastern Indonesia. Support included early survey and program planning, recruitment and

training of program staff, and regular monitoring and evaluation.

CURRENT VOLUNTEER AND NON-PROFIT BOARD SERVICE:

10/21 – present: Chair, Arizona Deserts National Parks Partnership.

9/20 – 11/21: Committee member, Arizona Statewide Comprehensive Outdoor Recreation Plan (SCORP)

9/14 – present: Board member (former Chair and Co-Chair), Sky Island Alliance, Tucson, AZ

6/14 – present: Member, Science Advisory Board, Altar Valley Conservation Alliance, Tucson, AZ

1/14 – present: Board member, Lensa Masyarakat Nusantara (Community Development Foundation), Denpasar, Bali, Indonesia

6/14 – 6/21: Board member (Secretary), Casas Arroyo Homeowners' Association, Sonoita, AZ

6/13 – present: Board member (Secretary), Cienega Watershed Partnership, Tucson, AZ
